# Foreward

*each one  
makes a  
difference*

Every individual is unique by his or her attributes that he or she tends to carry while dealing with fellow beings. Certain personality traits are undoubtedly inborn and some subjective to grow as one gets inputs from the external world. That is where we believe that learning is an ongoing process. As Zig-Zigler quotes, "Learn, unlearn and relearn."

Similarly, at ISBR, every student is dear to us because they have portrayed a different image on the canvas of life. We are indeed proud of them. However, few broadened and challenged their limits and pushed the boundaries to stretch their imagination. They certainly are positive catalysts to transcend the border between the known and the right.

We take pride in introducing the Best Managers who could think at the speed of light, be very positive, give shapes to their ideas and set the whole campus with their POSITIVE VIBES.

They perhaps believed in the dictum "pass on the baton of knowledge, exert yourself beyond the limit, optimise on each one's strength and race towards the goal of perfect synchronisation."

We are sure you would love to know each one of them.  
Here they come.....

# Words of Wisdom

There is magic inherent in success, and it never ceases to amaze anyone. Some strange alchemy leaves the stamp of individuality on every one of us. This edition stands as testimony to the love and gratitude that it evokes.

It warms the cockles of one's heart and creates instant camaraderie. This edition reveals the institute's personality traits, learning, intuitive insight, enriching education, radical richness, artistry of form and culture. Life at the campus would undoubtedly be the breeding ground for all success that follows in the latter part of life. Grab the opportunity to the maximum, so you become better individuals in society.

Any good academic institution will render the best opportunity to take a holistic approach, be it co-curricular activities, seminars, Leadership development programs, workshops etc. However, the participation, interest and overall positive qualities should be brought to the table by the faculty to motivate and encourage the budding managers.

At ISBR, we have always worked through our varied approaches. We have different platforms that showcase the students' talents, and there are instances wherein our students have won the most coveted awards like "The Best Management Student Award" in inter-collegiate events. We look forward to having many such achievers who will shine and bring laurels to themselves and the institution.

This is an opportunity to strengthen our students' abilities, talents, and competencies. We wish to go a long way in nurturing many such young bright men and women for our country.

We wish you brighter prospects in all your endeavours.
